

Agent 3 Qualities

2 . Solitary/Connected

Food truck vs Food chain

-food truck, solo business, one, maybe two man show, must get everything sorted (transportation, ingredients, preparation, service, etc.)

-food chain, many more people working together to create the final product, less responsibility on the individual

3 . Rhythmic/Arhythmic

Routine vs variation

-Same routine every day, very rhythmic

-New interactions with people every day, always something different

5 . Object/Texture

Skyscrapers vs townhouses/brownstones

-both similar objects, places of residence, have similar function

-extremely different facade

-skyscrapers are sleek, reflective, metallic, long, tall

-townhouses are short, bumpy, textured, decorated with masonry detailing, linear but less so than skyscrapers, stoops create another dimension

6 . Formal/Typographic

Normal route via memory vs via signs

-same routine, know the driving route just from muscle memory, no need for signs

-typographic signs spell out where to go

8 . Diachronic/Synchronic

How neighborhood has changed over time vs how it is now

-lots of construction over time, new jobs popping up, businesses closing, streets changing, people coming and going, how covid has affected

-now the neighborhood is forever changed, in a constant cycle of change and adaptation to our society
